## Tasks

---

Using the HTML elements and CSS properties mentioned in the Notes, complete the following webpage, submit it to your own GitHub repository, create a Pull Request, and send the Pull Request link to your mentor:

## Skip Christmas diner with your family

You will fly to Swiss to skiing during Christmas holiday with your friends, but the whole family is waiting for you after 6 years living in another city. And you are the only child in the family, everyone will be there including your relatives and your best high school friend.
